Another great turnout of volunteers occurred on Saturday 30 July at Yayasan Kumala in Sunter, Jakarta. The volunteers worked through lessons from the JA Worldwide programs ourselves and Our Community which have been adapted to suit the needs of these 'at risk' young people. The volunteers worked with small groups of students engaging them in enjoyable activity based lessons. This was the second visit by volunteers and, after the success of the first week, more young people turned up – a testimonial to the effectiveness of the volunteers work.
